APPENDIX TO

THE BUDGET

OF THE

UNITED STATES GOVERNMENT

FOR THE FISCAL YEAR ENDING JUNE 30

1954

OBLIGATIONS BY OBJECTS

AND

DETAIL OF PERSONAL SERVICES

WASHINGTON, D. C. 1953

APPENDIX TO

THE BUDGETBURGERY

OF THE

UNITED STATES GOVERNMENT

FOR THE FISCAL YEAR ENDING JUNE 30

1954

OBLIGATIONS BY OBJECTS

AND

DETAIL OF PERSONAL SERVICES

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON: 1953

INTRODUCTION

This Appendix to the Budget contains two types of statements in accordance with the provisions of section 204 of the Budget and Accounting Act, 1921, as amended (31 U. S. C. 581): (a) information as to obligations (or accrued expenditures in the case of various revolving funds) classified according to the uniform object categories, and (b) information as to personal services, broken down by grade and title. Schedules are shown in this Appendix in the same order as in the Budget.

FORM OF SCHEDULES

The object schedules are identical with those printed in the Budget. An explanatory illustration of the schedule of obligations by objects appears on page 4 of the Budget.

Following the method used in the 1950 Budget, as required by the law, the detail of personal services breaks down the employment in "permanent" positions between departmental (central office) and field, with a further analysis by classification grade and in the higher grades by title. A "lapse" line provides a deduction for savings due to vacancies, leave without pay, etc. The amounts required for temporary positions and special categories of personnel, and additional compensation for overtime, night work, etc., are added to obtain a grand total of personal services. (As in the case of the 1950 Budget, the detail of personal services is omitted for those accounts where there is no appropriation requested at this time and where no obligations are projected in the Budget for the next fiscal year.)

MEANING OF CERTAIN TERMS

Total number of permanent positions.—This is the number of full-time positions of permanent or indefinite duration, which are occupied or to be occupied at any time during the year. They include positions which may be filled by persons with temporary appointments, if the positions themselves are of a continuing nature. The number of positions is nearly always larger than the number of employees at any one time, due to delays in filling vacancies, etc.

Full-time equivalent of all other positions "Other positions" include those of a part-time nature (less than a full workday or workweek), temporary full-time positions for work of short duration (including seasonal jobs), casual labor, and positions in which employment is on an occasional ("when actually employed") basis. Because the total number of such positions for all parts of the year added together would not be particularly significant, the figures are stated on the basis of the full-time equivalent that is, the number of hours employment in such positions is divided by the regular number of hours which apply to a full-time job for the year, and the resulting figure is the full-time equivalent of "other positions."

Average number of all employees.—This figure is the average paid employment for the year as a whole, comprising the sum of permanent, temporary, and part-time employment. In order that the figure can be compared to the amounts required, it includes the full-time equivalent of paid leave (regular and on termination of employment). However, in order to avoid duplication, the figures for each agency exclude employees on detail from another agency, even where the detail is on a reimbursable basis.
